

# Industrial Fall Protection: Latchways WinGrip

*Finding suitable anchor points is not only difficult for utility workers, manufacturers, maintenance techs, and others working at height, it's critical to ensuring their safety.*

*MSA Latchways WinGrip System to the rescue.*

*Originally designed to protect personnel from falls while working on aircraft, Latchways WinGrip provides portable, compact, lightweight fall protection for industrial workers of all types.*

*This unparalleled vacuum-based fall protection solution is ideal for short-term applications, and wherever an anchor point is not readily available.*

*The system is comprised of a ground-based vacuum module, portable vacuum pad and durable connection hose.*

WinGrip Single-User System anchored to transformer

## The WinGrip Advantage:

- Intrinsically safe and suitable for wet or dry surfaces, indoors and out.
- Lightweight and portable anchors less than 13.5 lbs. (6.1 kg).
- Uses compressed air or nitrogen so no electrical or batteries are needed.
- Easy installation and ready-to-use in minutes.
- Simple, hands-free operation.
- No metal-on-metal contact to protect surface coatings.
- Safety engineered with an audible alarm in the event of a loss in supply pressure or sufficient vacuum level.
- System-tested and rated for fall arrest.
- Guaranteed safety period with all systems.

Other applications where WinGrip can provide portable anchorage benefits:

**Rolling Stock Access**

**Industrial Vehicle Maintenance**

**OTR Manufacturing**

**Storage Tank Maintenance**

**Ship Building**

**Substation Maintenance**
